- II.** Final call for feedback to the proposed revisions to the Exposure Control Plan with Sharps Incident Log and the Essential HazCom documents submitted by task groups. They were distributed to the committee 11/16/2020.

The task group that reviewed the Confined Space documents recommended the following:

- a. On the PPT for training affected employees: Slides 8-14 say “add photos”. Do we need to add those pictures? Or should each company add their own pictures?

We need volunteers to review the LOTO documents on the TRSA and SafeTRSA websites.
